in contemporary western culture the word fetus introduces either a political subject or a literal medicalized entity neither of these frameworks does justice to the vast array of religious literature and oral traditions from cultures around the world in which the fetus emerges as a powerful symbol or metaphor this volume presents essays that explore the depiction of the fetus in the world s major religious traditions finding some striking commonalities as well as intriguing differences among the themes that emerge is the tendency to conceive of the fetus as somehow independent of the mother s body as in the case of the buddha who is described as inhabiting a palace while gestating in the womb on the other hand the fetus can also symbolically represent profound human needs and emotions such as the universal experience of vulnerability the authors note how the advent of the fetal sonogram has

transformed how people everywhere imagine the unborn today giving rise to a narrow range of decidedly literal questions about personhood gender and disability

the empty seashell explores what it is like to live in a world where cannibal witches are undeniably real yet too ephemeral and contradictory to be an object of belief in a book based on more than three years of fieldwork between 1991 and 2011 nils bubandt argues that cannibal witches for people in the coastal and predominantly christian community of buli in the indonesian province of north maluku are both corporeally real and fundamentally unknowable witches known as *gua* in the buli language or as *suanggi* in regional malay appear to be ordinary humans but sometimes especially at night they take other forms and attack people in order to kill them and eat their livers they are seemingly everywhere and nowhere at the same time the reality of *gua* therefore can never be pinned down the title of the book comes from the empty nautilus shells that regularly drift ashore around buli village convention has it that if you find a live nautilus you are a *gua* like the empty shells witchcraft always seems to recede from experience bubandt begins the book by recounting his own confusion and frustration in coming to terms with the contradictory and inaccessible nature of witchcraft realities in buli a detailed ethnography of the encompassing inaccessibility of buli witchcraft leads him to the conclusion that much of the anthropological literature which views witchcraft as a system of beliefs with genuine explanatory power is off the mark witchcraft for the buli people doesn't explain anything in fact it does the opposite it confuses obfuscates and frustrates drawing upon jacques derrida's concept of *aporia* an interminable experience that remains continuously in doubt bubandt suggests the need to take seriously people's experiential and epistemological doubts about witchcraft and outlines by extension a novel way of thinking about witchcraft and its relation to modernity
